AVAILABILITY OF FUNDS

In 1969, the Missouri Legislature passed legislation (Senate Bill 40) to allow Missouri Counties and cities not a part of a county to approve local property taxes to generate locally controlled funds for the delivery of services to persons who are intellectually and/or developmentally disabled.

Platte County Board of Services for the Developmentally Disabled (hereafter referred to as "Board") has the responsibility for the administration and management of special tax revenues generated from a county-wide property mill tax.

The Board's fiscal year is from January 1 through December 31. In December of each year, the Board adopts an Annual Budget, which establishes an allocation plan by which funds are budgeted by administrative and service areas in accordance with priorities set by the Board's goals and objectives.

Agencies seeking funds from the Board should be aware that its funds are limited and the competition for them is great.

STATEMENT OF BASIC PRINCIPLES OF FUNDING

1. Platte County mill levy funds (SB 40) shall be used to supplement, not to supplant, all other public and private expenditures.

2. With respect to funding requests for the establishment of new or substantially expanded services, all applicants must demonstrate the need/demand for the proposed service by means of a waiting list verified by the referring or sponsoring entity (i.e., Department of Mental Health, Division of Vocational Rehabilitation) and, if applicable, a needs assessment conducted within Platte County.

3. An agency who has failed to perform in accordance with the contractual agreement with the Board on any one project, shall, therefore, be considered by the Board to be in default on all other projects, and no further funds shall be disbursed until the problem has been resolved to the satisfaction of the Board.

4. The agency must demonstrate an on-going effort toward publicizing its programs, functions, and location to all segments of the community, utilizing all feasible media. It is expected that public education materials and media information state that funding is being received from Platte County Board of Services.

2. The agency must demonstrate that it has a sound financial management system with fiscal management controls and record keeping as exhibited in an independent audit.

3. The agency must demonstrate that it has the programmatic, technical expertise and facilities to accomplish the agency's stated goals.

4. The agency shall meet at a minimum, those mandatory standards promulgated pursuant to local, state, and federal statutes. Agencies shall also obtain certification for any services they provide that are eligible for certification by CARF, The Council on Quality and Leadership, or other national accrediting body. Agencies that have never before received funding from Platte County Board of Services may be funded for a period of up to two years to obtain certification from CARF, The Council, or other national accrediting body for any services that are eligible for certification. De-certification of services funded by Platte County Board of Services shall result in default of the contract and funding will cease from the date of de-certification.

5. Preference will be given to agencies and services located in Platte County when such services by such agencies are equal to or better than those available elsewhere as determined by the Board in its discretion.

MONITORING

General Information:

As indicated in the Board Contractual Agreement, the Board staff and/or its designees may conduct on-site visits to the agency for the purpose of monitoring projects receiving Board funds.

The goals of monitoring are twofold:

1. It allows for the measurement of the progress of the agency in meeting objectives set forth in the project proposal.
2. It affords the opportunity for open communication between the Board and the agency with respect to project evaluation, identification of service gaps, and technical assistance to agencies regarding enhancement of service delivery.

It is important for agencies to understand that the function of monitoring is one of a constructive nature. The primary objective of monitoring involves assurance of appropriate utilization of Board funds and provision of services in keeping with the agency's approved proposal. Another objective of monitoring is to advocate for the delivery of quality services to persons with developmental disabilities.
